SPANISH SAFFRON

Single side, semi-solid co-extruded bamboo composite decking.

Dimensions	135 x 25 mm (5.4 m lengths)
Weight	2.84 kg / m
Joist spacing	450 mm on centres

Eva-Last® sets the standard for lightweight composite decking with the introduction of the new high performance, semi-solid *I-Series* decking profile. Using I-beam shaped feet, *I-Series* offers superior strength and span capabilities at a more economical price point. Its cutting-edge Infinity® cap and bamboo composition make *I-Series* the most attractive weather proof, low-maintenance composite on the market.

Fasteners

Grooved board

18 HULK Halo Clips / m²

Starter board

Uses HULK composite top fixing screws on non-grooved edges

SCREEN
70 x 16 mm

Infinity® co-extruded composite screening

Dimensions	70 x 16 mm (5.4 m length)
Weight	1.36 kg per metre
Span	1200 mm when fixed to 3 or more supports 900 mm when between 2 supports

The *Infinity*® screen or fascia board is a thin, lightweight composite profile. This double-sided board offers the brushed finish on both faces of the profile to create a neat aesthetic for cladding or screening. HULK top fixing screws securely fasten the boards in place. These are available in colours that match the composite boards to give a seamless look.

Apex® single side, bamboo / cellular PVC composite decking.

Dimensions	190 x 24 mm (5.7 m lengths)
Weight	3.1 kg / m
Joist spacing	350 mm on centres

Apex® is a bamboo filled PVC decking profile with an ultra durable engineered acrylic polymer cap. The Apex® cap technology has an undeniably realistic appeal, boasts immense strength and resistance to the elements and has class leading P5 slip resistance. Apex® is best installed using HULK Halo Clips and HULK top fixing screws, available in various colours to match the selected deck boards.

Uses HULK composite top fixing screws on non-grooved edges

HULK FASTENERS.

FASTENED, FOR LIFE.

Eva-Last® has developed a range of fasteners that thoroughly complement our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck through out its lifespan.

HULK FASTENERS

TOP FIXING COMPOSITE DECK SCREWS

The colours of our top fixing deck screws (CDS & MDS) can be perfectly matched to your deck boards.

Note: Due to printing and/or screen variations, colours in the brochure may differ slightly from the actual products.

Corrosion resistant

Neat surface finish

Easy torque control

Registered product of the Green Building Council of South Africa

CHOOSE SUSTAINABLE DECKING

MADE WITH SOLAR ENERGY

RENEWABLE RESOURCES & RENEWABLE ENERGY.

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products are now **manufactured using solar power**. We are fully committed to bringing you a product that's holistically eco-conscious.

Each Eva-Last® range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last® is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No further treatment or toxic chemicals required
- Made using solar energy
- Reduced impact on landfills (Recyclable)
- Reduced carbon footprint
