

## 8843

(Model MOH8843 AU)

Heat Output	▪	7.2kW av
Efficiency	▪	69% av
Coverage	▪	up to 150m <sup>2</sup>
Emissions	▪	0.8 grams/kg

Morsø craftsmen produce the finest cast iron wood stoves in the world, each one being a work of craftsmanship. Morsø has yet again gone the extra mile in their uncompromising efforts to make a fire natural, decorative and aesthetically integrated part of the comfort and warmth of our home, and the 8843 series is a convincing example of this with every detail of the series being well thought out.

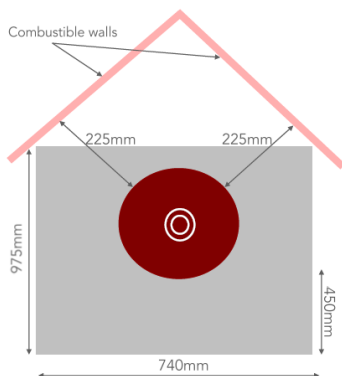

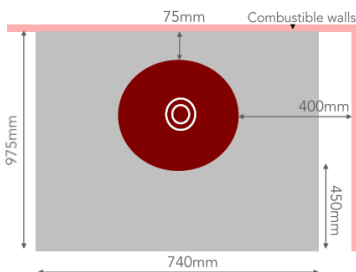

The epitome of Danish style and design. Each Morsø 8843 has been expertly crafted combining quality cast iron with the latest combustion technology.

One of the most powerful stoves in the Morsø range the 8843 is characterised by its clean and simple lines that offer a seamless appearance that is both rustic yet exclusive.

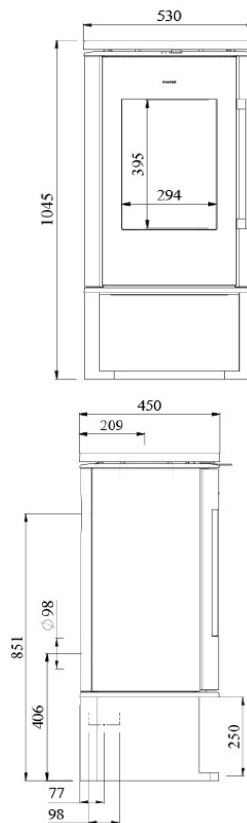

Internally the 8843 is cleverly engineered to use pre-heated primary air as well as secondary air for the cleanest burn possible. Externally the 8843 is equipped with a single one touch operating lever, a self-closing door and an elegant extended cool to the touch handle. While the cast-iron in the 8843 distributes the heat coming from this wood-burning fire efficiently and comfortably, while at the same time allowing the stove to retain its heat for a longer period of time.

### Clearances

	Width	Depth	Thickness
<b>Hearth</b> depth inc 450mm in front and 75 mm to rear. Thickness: Equal to 6mm cement fibre sheet.	740	975	6

### Dimensions

### Features
