

N2LOK

DOOR HARDWARE SPECIALIST

N2LOK

About Us

N2LOK have a handle on locks. Experts in security hardware backed by decades of experience, we place great value on innovation, style and quality. Choose from our range of products, from statement door furniture to state-of-the-art security solutions. We know how to make an entrance.

N2LOK opened its doors in 2011 with the intention to supply quality security hardware at a competitive price. Since then we have been developing and delivering product lines that are revolutionising the way locks look and function.

Available in a comprehensive selection of contemporary finishes, our locks and door accessories are designed to visually enhance your environment while strengthening security.

Finish Guide.

TERMS OF GUARANTEE

All our products come with a 7-year mechanical warranty, and a 5-year finish warranty except our living finishes: Matte black & Venetian Bronze are only a 12 month finish warranty while Satin Brass is not covered by warranty.

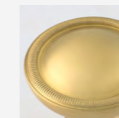

MATTE BLACK (MB)

A smooth dark finish free from shine or highlights. Matte black is a great modern accent piece, and an excellent choice to subtly highlight the other features throughout your home.

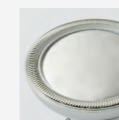

POLISHED BRASS (L03)

A high-shine, glossy, gold-like finish. Polished brass is a classic, timeless finish which allows the true tones of brass to shine through.

SATIN BRASS (SB)

A brushed, low shine, gold-like finish. Satin brass is the modern favourite and accentuates the features of your home without being over the top, this finish can be used anywhere for any project as this finish has no limitations.

POLISHED CHROME (PC)

A high gloss, silver, mirror-like finish. Polished chrome is a standard, classic finish which can be used with all kinds of styles and designs.

GUN METAL (GM)

A brushed, dark, and sleek finish. Gun metal is a finish that is remarkably similar to a raw metal finish to help compliment other metal features throughout the home or be the standout feature on its own.

VENETIAN BRONZE (10B)

A rustic dark finish with bronze highlights. Venetian bronze combines the modern look of matte black and the rustic look of bronze, to leave you with a rustic chic finish.

SATIN CHROME PLATE (SCP)

A cool silver tone, less gloss, light finish with a brush texture. Satin chrome plate is a no-nonsense finish which has stood the test of time and can suit any style of home.

SATIN NICKEL (DSN)

A slightly warm silver, with a brushed texture. Satin nickel is a more premium finish than its chrome cousin, it is warmer and sleeker. Satin nickel can be used as a subtle stand out piece in your home to help tie in the style of the house.

Other finishes you may come across

- RN** - RUMBLE NICKEL
- SSS** - SATIN STAINLESS STEEL
- PSS** - POLISHED STAINLESS STEEL

01. Multifunction Entry Sets

Engineered to last, INFINITY is built tough using high quality components to ensure that it works, well into future.

KEY FEATURES

- Patent pending locking system
- Design registered levers and escutcheon
- 10 Years limited warranty for finish & mechanics (Matte Black 1 year warranty and Satin Brass not covered by warranty)
- Brass C4 5 pin cylinders
- Durable finish
- Safety deadbolt with 25mm throw
- 260mm escutcheon (allows for retro fitting most doors)
- 4 keys supplied
- Micro cloth and cleaning instructions provided
- Stainless steel latch bolt and strike
- Suits doors 35-45mm thick
- 3 Non-handed lever designs to choose from

HOW IT WORKS

Infinity offers 3 advanced safety and security functions in one lock and one latch.

01

PASSAGE

When unlocked allows for easy entry and exit.

02

PUSH BUTTON PRIVACY

When home,use internal push button to lock outside.

03

DOUBLE CYLINDER DEADBOLT

When leaving your house,place key in cylinder and turn. This will throw a 25mm deadbolt latch,and will be locked securely inside and outside, providing extra security.

05. Entry Handle Sets

Forged in solid brass for enduring style and strength, the entry handle sets are inspired by the provincial themes of yesteryear.

Our Luxury Entry Handles encompasses various brass designs produced by the time-honoured heat forging process. Brass forging allows for intricate detailing and a superior finish. It creates a substrate that is solid, air pocket free and two and a half times stronger than the product achieved with the brass casting method.

Entry Handle Sets

KEY FEATURES

- Made of solid forged brass substrate for enduring style & strength
- Available in Dummy Set, Single Cylinder, Double Cylinder and Interconnect models all featuring 6 pin solid brass cylinder with the popular C4 keyway
- Choice of Flutto Lever, Spiral Lever and Egg Knob design (please note that Egg knob is not available on Interconnecting Set)
- 3 identically cut keys supplied with each entry handle suite
- Suitable for door thickness 35-45mm (Extension kit available upon request)

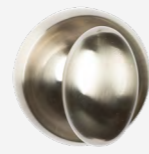

Handle Selection

Uovo Knob

Function Selection

Single Cylinder:

- Deadbolt operated by key outside and by thumb turn inside
- Internal deadbolt and lever/knob trim is sectional

Double Cylinder:

- Deadbolt operated by key only on both sides
- Internal deadbolt and lever/knob trim is sectional

Interconnect Set:

- Similar to single cylinder function
- Deadbolt operated by key outside and thumb turn inside
- It's added function is a deadbolt and spring latch that retracts simultaneously when the internal lever/knob is turned to open your door
- Featuring matching long internal escutcheon
